编译原理实验报告

LLVM IR 优化器实现

【实验评分截图】

```
[build] task4-classic
[build] 总分（加权）：57.36/100.00
[build] ========================================================
[build] 成绩单已保存：  /YatCC/build/test/task4/score-classic.txt
[build] JSON 格式：  /YatCC/build/test/task4/score-classic.json
[build]
[build] /YatCC/build/test/task4/llm-performance/fft.sysu.c/score.txt ... [PASS]
[build] /YatCC/build/test/task4/llm-performance/mm.sysu.c/score.txt ... [PASS]
[build]
[build] ========================================================
[build] llm-performance/fft.sysu.c ................................. 68.66/100.00
[build] llm-performance/mm.sysu.c .................................. 78.73/100.00
[build]
[build] task4-llm
[build] 总分（加权）：73.69/100.00
[build] ========================================================
```

【实验心得】

难上加难。
